

Why should I join?

All PTA communication will now be through this app. It will enable us to reach everyone instantly, and not rely on parents being part of a class WhatsApp or Facebook group.

We can reach both parents (traditionally not many Dads are in the class groups and as such, miss out on information).

You will be part of the wider school community. This is not just an app for us to tell you things, it is a discussion forum, a place to share information and ask questions.

TIPS

After receiving an invitation, you will start to receive announcements straight away

When you set up an account, you can configure your notifications to be instantly via email, in-app, or even just a summary once a week.

Even year 6 parents can benefit from this—your year group can arrange payment for leavers events and the class will be changed to an alumni group at the end of the year—you can still access it as long as you want.

Features at a glance

Parent contact list

Easily find and contact your child's new friend's parents. You don't have to share a phone number so it's totally GDPR-safe.

Announcements

Find the school info you need, quickly. Only the school or PTA can post here. They can schedule announcements in advance, to get them off their mental 'to do' list!

Events

Parent associations use the [Events tool](#) to organise PTA events, take payments, find volunteers and boost ticket sales.

Chat group is organised

The class chat group is structured with posts and comments rather than as a continuous feed - much easier than WhatsApp to find the information you are searching for

Organise meet-ups

Arrange a coffee or meet up and see easily who is coming using Classlist Events - no need for the whole class to receive lots of 'yes I'm coming'. 'I'm going to be late', 'not sure yet' type pings in a chat group

Marketplace

Parents love our Marketplace, where you can buy and sell everything from second hand school uniform, to pianos and bikes

Lost and found

There's a dedicated section in the Marketplace listings for lost property - no more messages out to the whole class looking for Jonny's jumper and the 30 replies back - 'not here!'

Parties with RSVPs

Set up private birthday parties and add guests by pupil name to let their parent know about the party. They can RSVP in the invitation so you can easily keep track of who is coming and any dietary needs.

Teacher presents

Collect money via Classlist for an upcoming get together or teacher's present.
