

# SECRETS OF SUCCESS

# Try new things

# Resourcefulness

- Questioning
- Making links
- Imagining
- Reasoning
- Capitalising

The emotional aspects of learning - Thinking

**What is  
learning  
?**

Do you learn  
more by getting  
things **right** or  
getting things  
**wrong?**

Don't be scared of Failure!

**Is it better to  
take time over  
your work or  
complete your  
work?**

**What do you do  
when you don't  
know what to  
do?**

**When something  
goes really badly,  
what do you do?**

**When you would rather take the easy route, how do you motivate yourself to take on a challenge?**

A purple starburst shape with a black outline, containing text. The starburst has multiple points and is centered on a white background.

**What do these pictures tell  
you about learning?**

**Movers**

**Blockers**

# Part of the Five Rs

**Resourcefulness:** knowing what to do when you get stuck

Resilience, Responsibility, Reflective, Readiness - more on these later!

# Resourcefulness

- Questioning

The emotional aspects of learning - Thinking

What is

**resourcefulness?**

(you'll learn some big words today!)

# Resourcefulness

- Questioning
- Making links
- Imagining
- Reasoning
- Capitalising

The emotional aspects of learning - Thinking

# 1.Questioning

- Being curious
- Wanting to get to the bottom of things
- Puzzling things out
- Often wondering and asking “Why?”

# 2. Making Links

<https://www.youtube.com/watch?v=5Ui21oHvOXA>

# Build up this learning muscle

- Connecting ideas, looking for patterns
- Create mind maps to show linked ideas
- Think to yourself:

“What do I already know?”

“How could this new idea fit in?”

# 3. IMAGINING

# This is what imagining means

- Letting your **mind explore** and play with possibilities and ideas
- **Picturing** how things might look, sound and feel
- Building up stories around objects, facts...anything!
- Rehearsing things in your mind before doing them for real

Use your imagination – what could these become?

## 4. Reasoning- What does it mean?

- To create **logical** arguments.
- To **spot flaws** in other people's arguments.
- To realise what might happen.
- To look for **evidence**.

<https://www.youtube.com/watch?v=tIUPW2ARTso>

# Building up our reasoning by asking:

- How many reasons can we find for that?
- What evidence can you find to support your argument?
- How have you come to that conclusion?

Use reasoning to work out the odd one out...give your evidence

# Build up your capitalising skills...

- Asking “What can we use to help us with this?”
- Reading **books**, listening to **others** and even by listening to **music**.
- Using information books, dictionaries and the **Internet**.
- Speaking to others.

# Test time!

- Can you remember what helps us to be resourceful?
- Look at the images and try to remember the skill...
